What parents have said...

A step dad recalled an incident at the weekend with his 12 year old step daughter. He said that the input he had received the previous week from the course helped him keep his cool and brought a more favourable outcome.

A single Mum who had presented as quite anxious on the first night told the group in week 2 that she had made an appointment with her 15 year old son during the week and had

had a far more favourable discussion with him than would previously have been the case.

Who's running it?

The trainer for this course is Scott Gordon who completed Parents' Engaging Adolescents training on October 25th, 2016.
